**Helps Make Strong, Sturdy Men and Beautiful, Healthy Women**  
3,000,000 People Use It Annually As a Tonic, Strength and Blood-builder

## MAKE THIS TEST

If you are not well or strong you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next, take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. Numbers of nervous, run-down people, who were ailing all the while, have most astonishingly increased their strength and endurance in 2 weeks' time in many instances.

Manufacturers' Note: Nuxated Iron which is presented and recommended by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the older iron tonic products it is easily assimilated and does not cause the heart, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

**WHEN BUYING ASPIRIN ALWAYS SAY "BAYER"**

Ask for "Bayer Tablets of Aspirin" in a Bayer package—marked with "Bayer Cross."

Don't buy Aspirin tablets in a pill box. Insist on getting the Bayer package with the safety "Bayer Cross" on both package and on tablets. No other way!

You must say "Bayer." Never ask for merely Aspirin tablets. The name "Bayer" means you are getting the genuine "Bayer Tablets of Aspirin," proven safe by millions of people.

Beware of counterfeits! Only recently a Brooklyn manufacturer was sent to the penitentiary for flooding the country with talcum powder tablets, which he claimed to be Aspirin.

In the Bayer package are proper directions and the dose for Headache, Toothache, Earache, Neuralgia, Rheumatism, Lumbago, Sciatica, Colds, Grippe, Influenza, Colds, Neuritis and pain generally.

"Bayer Tablets of Aspirin," American made and owned, are sold in vest-pocket boxes of 12 tablets, which cost only a few cents, also in bottles of 24 and bottles of 100—also capsules. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—Adv.

## "A Cold Blooded Business Proposition"

YOU'VE heard people say it.

"The American public are tired of patriotism now that the war is over. The only thing that will appeal to them is a cold-blooded business proposition."

Do you believe it? Do you think the American people are going to buy this Liberty Loan only because it's a bully good investment that shows sound business sense?

Sixty-five thousand Americans went to France and "invested" all they had in Liberty and were killed before their "dividends" came due.

THAT was a "cold-blooded business proposition."

Two million other Americans went to France, too, and tried to get in on the same "investment." And they knew they'd never "clip a coupon."

THAT was a "cold-blooded business proposition."

THAT was a "cold-blooded business proposition."

THAT was a "cold-blooded business proposition."

Thirty million other Americans here at home got in on that "investment"—saved and went without things for a year and a half to do it.

THAT was a "cold-blooded business proposition."

Well—we've still got a job to finish. And we're still Americans. Do you believe we're not going to do it in the old American way?

The only "cold blood" we care about is the American blood soaking in the battlefields of France. We're going to see to it that that blood was not shed in vain.

And the only "business proposition" we're interested in just now is the proposition to see the job through right—to a finish—with whatever American dollars and whatever American energy it may take.

That may be a "cold-blooded business proposition."

Some people call it patriotism.

People become interested in Overland Cars through the Praise of Owners. They reason logically that a car enjoying such loyal owner-endorsement, must live up to its reputation for all round satisfaction. It is the completeness with which Overland Cars meet every requirement, plus our policy of placing owner-satisfaction above all else, that creates such universal owner-appreciation. The cars make friends of their owners. Owners make owners of their friends. In this way the sale of Overland Model 90 car alone already has grown to more than one hundred and fifteen thousand.
